

# Share'Touch

by after-mouse.com

## Share, negotiate and correct in real time!

Thanks to Share'Touch, you can adopt an innovative, collaborative tool, at the cutting edge of technology, and optimize exchanges within your company and with your external partners. Discover the possibilities offered by Share'Touch, as follows:

- Organized, simplified exchanges for **better results**.
- **Productivity accrued** from collaborative sessions.
- A **modern, innovative image** for your company.
- **Reduce travel costs** thanks to long-distance interactive meetings.
- **Energized and more involved teams**.
- Instantaneous interactions made easier, **aiding the comprehension and resolution** of exposed problems.

# Share'Touch : simplify your exchanges!

With Share'Touch, share your documents in an interactive and user-friendly way! Simple and intuitive, this application offers you numerous possibilities.

- **Integrate your files** directly into the application from your work space, a USB key or a scanner.
- **Add comments/notes** to your documents, images or videos with a simple touch, thanks to drawing tools (directly using your fingers) and text (with your virtual keyboard).
- **Exchange files** instantly with your teams, partners or clients, directly using the Microsoft® Surface® unit or via any other material which works under Windows 7. Whether they are sitting across from you or on the other side of the world.
- **Instantly distribute** your documents to a large number of users.
- **Duplicate your documents endlessly**, on your screen or on those of other users. **Send** your documents directly **by email**.
- **Control the diffusion** of your documents, only **users authorized beforehand** have access to shared files.

## Push files

With a simple touch of a finger, slide a document over to the user of your choice. It will appear on his or her screen instantly, as if by magic!

## Add notes/comments

A simple, quick way of adding comments to a Word, Excel or PowerPoint\* document, to an image (JPG, PNG, XPS), or to a video. Select, using your finger, the place where the note should go, a virtual keyboard will appear allowing you to integrate your comments or your ideas.

## Draw

This tool allows you to make changes to an image or text file in a playful way. Simply by selecting one of the integrated drawing tools: pen, brush, rubber, choice of color, etc.

## Share in real time

Distribute a document in real time to desired computers. Each change carried out will be instantly displayed on the screen of other users. These direct interactions will make your exchanges and comprehension easier.

## Simplify your exchanges with Share'Touch, touch screen multi-platform application!

Our software is ready for immediate use, and is compatible with all systems which work with Windows 7 and Microsoft® Surface® 1.0 and 2.0: touch screen units, screens, laptops, PC tablets, walls!

Share'Touch works thanks to a server acting in the capacity of administrator. Each user wanting to connect to this server will be able to do so via a client license. There is no limitation to the number of users \*\*.

\*The integration of these formats requires a Microsoft® Office® license.

\*\*Limited by your internet connection and current networks.
